Tirzepatide Injection

Status: Resolved

Duration of Storage: 12/15/2022 - 10/02/2024

Therapeutic Categories: Endocrinology/Metabolism

Eli Lilly and Co. (Revised 10/02/2024)

Company Contact Information:

800-545-5979

Presentation

Note

<p>Mounjaro, 10 Mg/.5 MI (NDC 0002-1471-80)</p>	<p>Even When A Medication Is Available, Patients May Not Always Be Able To Immediately Fill Their Prescription At A Particular Pharmacy. That Is Especially True For Refrigerated Products And Products With Multiple Dose Strengths, Due To Factors Like Ordering Practices And Incentives, Cold Chain Logistical Considerations, And Retailer Capacity Constraints. Patients May Experience Variability At A Particular Pharmacy Location Regardless Of Whether A Drug Is In Shortage.</p>
<p>Mounjaro, Injection, 12.5 Mg/.5 MI (NDC 0002-1460-80)</p>	<p>Even When A Medication Is Available, Patients May Not Always Be Able To Immediately Fill Their Prescription At A Particular Pharmacy. That Is Especially True For Refrigerated Products And Products With Multiple Dose Strengths, Due To Factors Like Ordering Practices And Incentives, Cold Chain Logistical Considerations, And Retailer Capacity Constraints. Patients May Experience Variability At A Particular Pharmacy Location Regardless Of Whether A Drug Is In Shortage.</p>
<p>Mounjaro, Injection, 15 Mg/.5 MI (NDC 0002-1457-80)</p>	<p>Even When A Medication Is Available, Patients May Not Always Be Able To Immediately Fill Their Prescription At A Particular Pharmacy. That Is Especially True For Refrigerated Products And Products With Multiple Dose Strengths, Due To Factors Like Ordering Practices And Incentives, Cold Chain Logistical Considerations, And Retailer Capacity Constraints. Patients May Experience Variability At A Particular Pharmacy Location Regardless Of Whether A Drug Is In Shortage.</p>
<p>Mounjaro, Injection, 2.5 Mg/.5 MI (NDC 0002-1506-80)</p>	<p>Even When A Medication Is Available, Patients May Not Always Be Able To Immediately Fill Their Prescription At A Particular Pharmacy. That Is Especially True For Refrigerated Products And Products With Multiple Dose Strengths, Due To Factors Like Ordering Practices And Incentives, Cold Chain Logistical Considerations, And Retailer Capacity Constraints.
